Subject: RE: Pfas Info *New Item* Site: South Andover

Good morning,

This email is in response to your PFAS consultation dated May 4, 2022 (shown below). OLEM/OSRTI has reviewed the information submitted on the South Andover site and this site qualifies for a streamlined PFAS consultation. Please proceed with the sampling activities.

If you have any questions or concerns, please reply to this email or call me at 212 637-3768.

Name of EPA Regional Point of Contact for Site:
Stephanie Ross
City:
Andover
Region:

5

County:

Anoka

State:

Minnesota

NPL Site Status:

Final
CERCLA Removal Action?
No
RCRA Site?
No
What is type of site or potential/actual source of PFAS? (e.g., landfill, airport, electroplater, fire training pit, air deposition)
Industrial waste treatment/disposal
If applicable, and as relates to PFAS, where is EPA or state, in enforcement process (e.g., PRP Search, 104(e) letter issuance, ASOC negotiations)?
What is EPA's role for PFAS at the site? (Is EPA helping state? Is EPA sampling?)
Lead agency
What is state's role for PFAS at the site? (e.g., state discovery, ARAR, SDWA)
Support agency
Does the PRP or Federal Facility agree with, or are they expected to agree with, the plan to sample?
No
Is the region requesting an HQ PFAS consultation for this site?
Yes
If RCRA Corrective Site, what is current phase of cleanup for PFAS?
Not Applicable
If a CERCLA removal action, what is current phase of cleanup for PFAS?
Not Applicable
Federal Facility?
No
NPL Fund Lead?
No
NPL PRP Lead?
Yes
NPL State Fund Lead?
No

Other (e.g., NPL sites that are deferred to a non-CERCLA State program, Superfund Alternative Site) Has site already been sampled and analyzed for PFAS? No If applicable, what media were sampled for PFAS? Check PFASs are detected Summarize maximum concentrations of PFAS found by media Has PFAS been detected in a drinking water supply? Yes, private water supply If an affected drinking water supply is public, what population is served? If an affected drinking water supply is private, how many wells are impacted? 42 Is there a request to sample for PFAS now? Yes What media have known PFAS contamination? Groundwater, What are the number of PFAS plumes delineated? If biota are contaminated, list biota.
If applicable, what media were sampled for PFAS? Check PFASs are detected Summarize maximum concentrations of PFAS found by media Has PFAS been detected in a drinking water supply? Yes, private water supply If an affected drinking water supply is public, what population is served? If an affected drinking water supply is private, how many wells are impacted? 42 Is there a request to sample for PFAS now? Yes What media have known PFAS contamination? Groundwater, What are the number of PFAS plumes delineated? If biota are contaminated, list biota.

Yes What media have known PFAS contamination? Groundwater, What are the number of PFAS plumes delineated? If biota are contaminated, list biota.
What media have known PFAS contamination? Groundwater, What are the number of PFAS plumes delineated? If biota are contaminated, list biota.
Groundwater, What are the number of PFAS plumes delineated? If biota are contaminated, list biota.
What are the number of PFAS plumes delineated? If biota are contaminated, list biota.
If biota are contaminated, list biota.
Request is to sample what media for PFAS?
Groundwater

Organizational Role of EPA Regional Point of Contact for Site

NPL State Enforcement Lead?

RPM
Five Year Review underway?
No
If a CERCLA remedial action, what is current phase of cleanup for PFAS?
Not Applicable
List other key potential or actual contaminants of concern that may co-occur with PFAS
1,4Dioxane
Briefly list any current remedies in place
Residents are on bottled water until state can install municipal lines
Comments

How was site discovered with regard to PFAS? (e.g., state, PRP, Third Unregulated Contaminant Monitoring Rule (UCMR3)) MPCA close landfill program sampling of WDE landfill
